Srđan Kovačević for TVORNICE RADNICIMA / FACTORY TO THE WORKERS (HR 2021)

JURY STATEMENT

The director lets us into a world through the use of a decisive camera and tells us a layered story: a mythology fueled by nostalgia and idealism which is hardly imaginable anymore. An empowering portrait of the working class that shows them as individuals in charge of their own future, making their voices heard in their self-created agora. The film shows a microcosm of contemporary capitalist society and acts as a strong critique and reflection upon important questions that we should be asking in our current 24/7 economy.
